Give Them a Chance!
That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thin and little tubes and capillaries making up the entire system. When these are clogged and choked with mucus which ought not to be there, your lungs cannot do their work. And what they do, they cannot do well. Cough, cold, croup, pneumonia, asthma, consumption, or any of the family of throat and nose and lung obstructions, all are bad. All ought to be got rid of. There is one sure way to get rid of them. That is to take St. Jacobs' German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon it.

A GOOD OLD SPORT.

Town Ball, the Rough and Enjoyable Game From Which Base Ball Has Been Evolved.

Town ball was the remote ancestor of base ball, says a writer in a Western paper. There was more fun in town ball than in base ball, and less science. We used to make our own bats out of pieces of fence board, and buy a hard rubber ball.

There was none of the foppishness of polished bats and combed creases in those days. Town ball required a uniform, but the uniform was generally bare feet. The rest of the costumes were various.

You could not sit in a grand stand and enjoy town ball as the present generation does base ball. Of course it is easier to sit around and watch other people take exercise, but it requires education to enjoy it.

In Turkey people never dance themselves; they hire others to do it for them. In 1886 we hire others to play ball for us.

We had not developed up to the vicious idea when Andrew Jackson was President of these United States.

Young America will please to understand, then, that there was a pastime, played with a bat like a paddle, in which the striker ran around four bases while the outside tried to fire the ball between him and the base he was running towards; thus one could be "crossed out," or, what was better, he might be struck with the ball while running if the thrower was a good marksman, and the harder he was hit the more funny. First bounce was out, and so was over the fence.

The umpire was a thing unknown in town ball, and hence instead of appealing to a legally constituted tribunal, as now, for judgment, mooted points were settled by thrashing the other side.

A decision thus arrived at was always satisfactory, and there never was any appeal. There used to be an almost superstitious reverence for the result of the ordeal by combat, which always proved that "cheating" never thrives. If the beaten ones were too sulky to resume the game, volunteers would generally be called for.

Reading Along.

If you ask eight people out of ten now, they will tell you that they have been reading to. And why? Because from their childhood they have been unused to it, and used only to such a monotonous drone as robbed even the Arabian Nights of half their charms.

The husband, at the end of a hard day's work returns home to pass the evening absorbed in his book, or dozing over the fire, while the wife takes up her novel or knits in silence. If he reads to her, or if he could tolerate her reading to him, there would be community of thought, interchange of ideas, and such discussion as the fusion of two minds into any common channel cannot fail to produce.

And it is often the same when the circle is wider.

I have known a large family pass the hours between dinner and bedtime, each one with his book or work, afraid to speak above his breath, because, "it would disturb papa."

In this cheerful, or wise, or conducive to that close union in a household which is a bond of strength through life, while the world can neither give nor take away?

I cannot blame them, for they all read abominably; and it is enough to have endured the infliction of family prayers, grasped and mumbled by the head of the family, to feel that listening to such a delivery for any length of time would exasperate one beyond endurance.

But it was not always so. In the last century—even as late as fifty years ago—reading aloud was regarded as an accomplishment worth the cultivation of those (especially those who lived in the country) with pretensions to taste; and it was, consequently, far more frequently found enlivening the domestic circle.

There were fewer books, fewer means of locomotion, fewer pleasures of Winter nights outside of the four walls of the country parlor.

The game of cribbage, or the sonata the spinet, did not occupy the entire evening after six o'clock dinner; and Shakespeare and Milton were more familiar to the young generation of those days than they are now—mainly, I feel persuaded, because they were accustomed to hear them read aloud.

The ear, habituated to listen, is often a more safe conduit to the memory in youth than the insensitive eye which rapidly skims a page.—[Nineteenth Century.]

Importance of Choosing Nutritious Food.

According to the British Medical Journal the most flagrant dietetic errors on the part of poor people arise from ignorance of the nutritive value of foods.

When they cannot buy meats, whose importance they recognize, they do not put proper articles in the place of it. They do not correctly estimate the high value of milk and eggs; and when obliged to use a largely vegetable diet they make no distinction between un-nutritious vegetables and those which, like peas and beans, are rich in nitrogen and well calculated to supply the place of animal foods.

Peppermint King.

Hiram G. Hotchkiss, of Lyons, Wayne County, is known as the peppermint king. He is 75 years of age and wealthy. He has up all the peppermint oil the farmers make.

Wayne County has about 4,000 acres in this culture. The trade is likely to take a boom, as the Connecticut doctors have taken to drinking peppermint today.

A Narrow Policy.

The Republican Convention of Storey County at its session Oct. 4, adopted a resolution opposing the use of school money, either directly or indirectly, for the encouragement of any system of irrigation or other public improvement.

The latter, doubtless, is meant to include water storage, etc. While the fear of jobs and dishonest manipulation may have influenced members in voting for this plank in the platform, we must believe that the Republicans of Storey, on sober second thought, will be inclined to a more liberal policy in this matter. We do not know the authorship or motive of the author in presenting the resolution, but that the subject received the consideration it deserves we do not believe. Any plausible well-worded resolution can be put through the average convention without the least trouble unless there is some one present especially interested. To us it seems very plain that without some action either by the State or National Government, Nevada is at the end of her rope, so far as material progress is concerned.

The policy of doing nothing means stagnation to the State. Storey county Republicans cannot afford to say "We will stay and work out what we are in sight and then leave Nevada to remain a sage-brush desert." She should join the other counties in the march of progress and do all in her power to devise wise and practical means of enlarging our water supplies and reclaiming our barren lands.

The GAZETTE believes Nevada can be made a great State. It favors only what is good for the State as a whole. It does not care where work begins or what plan is proposed, it will support it if it is right and will secure the end that is sought.

THE wage-earners of the State of Massachusetts have been able to save out of their earnings, and deposit in savings-banks, for use on rainy days, more money than have all the wage-earners in Great Britain and Ireland together. They have done this, too, under a protective tariff. This one fact is the whole protective idea in a nutshell, and it is of more practical value as an argument in political economy than all the theories in the world.

IN New York the opposition to Governor Hill is so great within his own party and among the Mugwumps that Hill Democrats are offering to trade with Republicans, giving Harrison for Hill votes. This may induce Cleveland to endorse Hill, in which case he will endorse all that makes Hill obnoxious to the better element of all parties. It puts the President in rather a tight place.

IT is not a little amusing to note the strenuous and continued efforts of the Democratic press to convince their readers that the Maine election was really a free trade victory.

Mormon Fanaticism.
SALT LAKE, Oct. 5.—The Mormon semi-annual conference opened here to-day, Apostle Lorenzo Snow presiding. His remarks were to the effect that it is pleasant to suffer persecution while doing the work of the Lord. He urged the establishment of private Mormon schools, with good Latter-day Saints as teachers, and said the membership of the Church was increasing rapidly. Lorenzo is one of the famous polygamist converts.

Elder Jacob Gates said that as prophets of old broke down the prison walls, so the power of the priesthood of the present day would break down the prison walls.

Elder Seymour B. Young said: "The more we suffer for the gospel the greater will be our reward."

The Situation Unchanged.
JACKSONVILLE, Fla., Oct. 5.—The weather continues warm, and the hopes of a phenomenally early frost are dispelled. The situation remains unchanged, except, perhaps, that the cases of fever are generally of a milder type. New cases, 52; deaths, 6.

A Clean Election Demanded in Indiana.

The Completion of the Finest Catholic Church on this Continent.

A Good Move.

INDIANAPOLIS, Oct. 5.—The following agreement, which has been entered into by the Chairmen of the Republican and Democratic Central Committees, is self-explanatory: "Indianapolis, Oct. 5.—It is hereby requested and directed that in all election precincts where the Inspector is Democratic he shall appoint a Judge and a clerk to be selected by the Republicans of such precinct, and where the Inspector is Republican he shall appoint a Judge and a clerk to be selected by the Democrats of the precinct. (Signed) James N. Huston, Chairman Republican State Central Committee; Charles E. Jewett, Chairman Democratic State Central Committee."

The proposition originated with Chairman Huston, Chairman Jewett, in returning this agreement to-day with his approval, submits a proposition to the Republican Committee, proposing the formation of a committee of 100 members, 45 of which shall be named by the Republican Committee, 45 by the Democratic Committee, and 10 by the Prohibition Committee. The business of this committee shall be to discover and punish illegal voting and election frauds of every description, and to establish branches under like conditions in every county in the State. Chairman Jewett invites immediate consideration of this proposition by the Republican Committee.

Blessing the Crosses.

NEW YORK, Oct. 5.—The five spires of St. Patrick's Cathedral, on Fifth Avenue, have been completed, and the builder has begun pulling down the scaffolding. The ceremony of blessing the handsome marble crosses which surmount the spires took place Wednesday at the Cathedral. Archbishop Corrigan officiated and a great many clergymen were present. After the crosses had been blessed the Archbishop said the first to imprint a kiss on their base, and all present then did likewise. The crosses later on were hoisted to the pinnacle of the spires, and each secured by a copper bolt running through the upright shaft and far down into the spire. The height of the spires surmounted by a cross is 340 feet.

The finest Catholic Church on this continent is now complete. It is just thirty years since the corner-stone was laid, which interesting ceremony took place on August 16, 1858. The architect was James Lenox. The building is an example of early Gothic architecture.

Blaine's Movements.

DETROIT, Oct. 5.—In consequence of a slight cold and hoarseness which has developed since his speech in the open air yesterday at Adrian, Blaine determined this morning not to go to East Saginaw and Ipsenning. This determination was strengthened by the reports of an icy temperature in the Northern Peninsula. Blaine is at the residence of General Alger, where he will remain till Monday, when he will fill an engagement at Grand Rapids, and will from that point proceed to Indiana. He will arrive at Chicago about the 17th or 18th of October. There is nothing serious in his present indisposition, and the cancellation of his East Saginaw and Ipsenning engagements is caused simply by a desire to husband his voice.

Executive Joy Killed Her.

NEW YORK, Oct. 5.—Seraphine Roth promised last Thursday to be the bride of Louis Lowenthal. They had loved for years, only to be separated when almost united. Six months ago the girl came to this city to visit her uncle and recover, if possible, her health. An acquaintance of long standing with young Lowenthal ripened to love. Joy proved too much for the heart of the delicate girl, for two hours after she was seized with a fainting spell and carried to her room, where she died without uttering a word. A messenger bore the cruel tidings to her accepted husband.

Murderers Captured.

WICHITA FALLS (Tex.), Oct. 5.—A Sheriff's posse on Tuesday surprised and captured Bob and Dan Campbell at Red River Bottom. They murdered Deputy Sheriff Coburn, who was attempting to arrest them for robbing a train on the Southern Pacific and for robbing the bank at Cisco, Tex. They were lodged in jail there.

A Verdier Set Aside.

DOWNTOWN, Cal., Oct. 5.—The Court to-day set aside the verdict of the jury finding Berthello Aroni guilty of the murder of S. F. Harlan, and granted defendant a new trial, admitting him to bail in the sum of \$10,000.

Becoming Badly Mixed.

NEW YORK, Oct. 5.—The delegates in the Tammany County Convention met to-night and nominated a straight Tammany county ticket. The leaders were in conference all day, and many messages were exchanged with the County Democracy. Tammany submitted five names to the "Counties" as the only ones upon which they could unite. The first two, Grant and Dugro, were rejected promptly, and finally O'Donohue and Cox were ruled out. Roswell P. Flower was the only one acceptable to the "Counties," and the latter asked for more time to consider the question of his nomination. Saying that they had waited long enough, the Tammany leaders decided to select their own candidate and proceeded with the work in the convention. General John Cochrane was made temporary chairman of the convention.

Resolutions were unanimously adopted pledging the support of the organization for the National and State Democratic tickets, and denouncing the reactionary principles of the Republican National and State platforms, also monopolies, aristocracies and Know-nothings. The administrations of President Cleveland and of Governor Hill were endorsed, and the operations of trusts denounced as criminal.

Sheriff Grant was nominated for Mayor by acclamation. Other nominations were: Jas. A. Flack for Sheriff; Senator Edward F. Reilly, County Clerk; George H. Foster, President of the Board of Aldermen.

Judge Terry's Case.

WASHINGTON, Oct. 5.—Neither Mr. Ashe nor Mr. Williams has taken any further steps in the matter of Judge Terry's pardon beyond what has been telegraphed. Senator Reagan of Texas will present the case to the President on Saturday. It is very probable that all the papers in the case will then be transferred to the Attorney-General, who will prepare an opinion, which will presumably receive the President's approval. It may be said in passing that there is no reasonable ground for the belief that the Attorney-General will give a decision favorable to Judge Terry. This conclusion is not based on any statements made by Mr. Harland, who studiously refuses to commit himself in the matter, but is the general and outspoken opinion of those who are closest to him and who are supposed to share his confidence, and for this reason it may almost be regarded as a semi-official utterance upon the subject.

Adjournment of Congress.

WASHINGTON, Oct. 5.—Representative Forney, Acting Chairman of the Appropriation Committee, has expressed the opinion that Congress will adjourn on October 16th, which date will be the disposition of the Dingley bill and a fair opening of the debate on the tariff bill in the Senate.

A Murderer Hanged.

BRIDGEPORT, Conn., Oct. 5.—Philip Palladoni, who killed his brother last year, was hanged in the jail yard here this morning. He died of strangulation twelve minutes after the drop fell. He was in a fainting condition when the trap was sprung. The scene at the scaffold was horrible.

The Record Again Broken.

BROOKTON, Mass., Oct. 5.—On the Fair Grounds here this afternoon Mrs. Marietta drove Major Banks and Trumpet to wagon one mile in 1:54.2, over a half-mile track, the record heretofore being 1:55.

Lander Republican Ticket.

Assemblymen, S. L. Cahoon, G. W. Hardy and Cole Cutting; Sheriff, Joseph McComb; Recorder, W. A. Clifford; County Clerk, J. H. Tolson; District Attorney, D. C. McKinney; Treasurer, G. H. W. Crockett; Assessor, Jefferson Hall; Commissioner, long term, William Foster; short term, Commissioner, B. F. Wilson; Public Administrator, William Schwin; Surveyor, J. D. Park.

Dance To Night.

Upon and Stokes have rented Armory Hall, and with the assistance of Professors Hastings and Kaufman, and Mrs. S. Peck, will give one of their pleasing soirees this evening. Admission 50 cents. A large crowd is anticipated.

Of Interest to Aliens.

Judge Bigelow will leave this county next Thursday morning, and will probably not return until after the 20th, consequently those desirous of naturalization will have to apply on Monday, Tuesday or not later than Wednesday.

Barrels.

The motto of California means, I have found it. Only in that land of sunshine, where the orange, lemon, olive, fig and grape bloom and ripen, and attain their highest perfection in mid-winter, are the herbs and gum found that are used in that pleasant remedy for all throat and lung troubles.

The Storey County Republicans have placed the following strong ticket in the field: State Senators—Col. E. D. Boyd and J. Dunlop; Assemblymen—Archie Allen, Thomas R. Farr, George D. Pyne; A. W. Merrick, P. A. McNamara, John L. Hanna, C. B. Wyckoff, J. P. Williams, Richard Bennetts, F. P. Langston, Sheriff, S. S. McCullough; District Attorney and County Superintendent of Public Instruction, J. A. Stevens; County Clerk and Treasurer, Frank Wildes; Recorder and Auditor, Thomas Graey; Public Administrator, A. J. Welch; County Commissioners—long term, Milo C. McMillan of Virginia; short term, F. W. Folsom, Gold Hill.

Death of a Nevada Pioneer.

The telegraph brings the sad intelligence of the death at his Oakland residence of Hon. H. G. Parker. Deceased was one of the early settlers of Carson City; was a member of the convention which formed the constitution of this State, afterwards acted as Indian agent, and later represented Ormsby county in both the Assembly and Senate. For many years Mr. Parker, in company with W. D. Tobey, has held the contract of loading on the cars, the wood and lumber of Yerington & Bliss. "Hub" will be greatly missed by all old timers.

State Land Office.

Since last report ten applications for purchase of State land have been filed, embracing 977.77 acres. The cash receipts were: Payments on applications, \$471.80; second and full payments, \$338.41; payments on contracts, \$343.98; interest payments on contracts, \$488.42; total, 1,642.11.

Attention Candidates.

The Washoe County Republican County Central Committee will meet Monday evening October 8th at 8 o'clock in Committee rooms, Armory Hall. All candidates for the Republican ticket are requested to be present. By order, EXECUTIVE COMMITTEE.

Incorrectly Informed.

There is not a word of truth in the item in last evening's Virginia Chronicle, to the effect that "Chinese locomotive engineers, firemen, brakemen and conductors are to be employed on the Nevada & California railroad."

BREVITIES.

Local and General Intelligence. Two carloads of fine Merino bucks from California passed East this morning.

There was a very large crowd at the Beckwith fair. Many had to sleep in the barns.

There were 880 names on the registers books of this precinct this morning at 10 o'clock.

One hundred and forty negro miners were put to work in the Roslyn, W. T., coal mines, Monday.

Three carloads of Fresno, California raisins were yesterday shipped from San Francisco direct to London.

Frank Leslie's Illustrated Weekly, which has hitherto been Democratic, is supporting Harrison and Morton.

John Richardson, the old war-horse, is making the Opera House Saloon a very pleasant place of resort.

Those apples in Osburn & Shoemaker's show window from J. M. Steinberger's Willow Ranch in Long Valley, are beauties.

Powning's fine business block on the east side of Virginia street makes the small wooden structures on that side appear very diminutive.

George Dell, charged with selling whisky to Indians, waived an examination in the Justice Court and his case goes to the District Court for trial.

D. O. Mills returned last evening from a trip to the southern terminus of the Carson & Colorado railroad and took the west-bound train for California.

A. Nelson, the cigar and tobacco dealer is enlarging his cottage residence on 5th street near Chestnut, and it is hinted that he is soon to have a house-keeper.

The Pollard House is but a step from the C. P. and V. & T. depot and passengers will find it a first-class house in every particular. J. W. Killen, the proprietor, will make it pleasant for all who call.

"Age Cannot Withstand." Remarked an old gentleman, as he gazed fondly upon the comely little woman by his side; "but frankly," he continued, "at one time I was afraid cosmetics would."

The silly little woman, in order to appear youthful, plastered her face with different varieties of whitewash, yclep, "balms," "creams," "lotions," etc. "Yes," interrupted the little woman, "I did until my skin became like parchment, and so pimply and coarse." "Well," said the listener, "what do you use now?" "Usee," was the reply, "nothing but common sense and Dr. Pierce's Medical Discovery."

Pierce's Medical Discovery. Common sense told me if my blood was pure, liver regulated, appetite good, that the outward woman would take on the hue of health. The 'Discovery' did all those things, and actually rejuvenated me."

Its thousands of cures are the best advertisement for Dr. Sage's Catarrh Remedy.

SALEM, Oregon, April 10.—I have just been cured of quite a severe attack of Catarrh of the Bladder and Stricture of the Urethra, mainly by the use of a couple of boxes of the Oregon Kidney Tea, and can therefore recommend the tea as a valuable remedy for diseases of the Kidney and Urinary Organs.

Found Not Guilty.

The jury in the case of Miles Finlon, on trial in Virginia City for the killing of David Pryne, yesterday afternoon returned a verdict of not guilty, and the prisoner was discharged.

HOW IT HAPPENED.

Further Particulars Regarding the Death of Pratt, the Hot Springs Operator.

WADSWORTH, Nev. Oct. 5, 1888. EDITOR GAZETTE.—C. S. Pratt, a telegraph operator at Hot Springs, was relieved at that place yesterday morning for the purpose of taking a similar position at Toano. While waiting for the east bound passenger train, he said he would go over to the Springs and take a bath. As he was absent longer than was necessary and the train time drew nigh, the lady operator sent a Chinaman to call him. The Chinaman came running back and reported that he had found Pratt near the Springs with his clothes on, crazy and badly scalded. The man was brought to Wadsworth on a special, but he was beyond the physician's aid and died at 4:15 P. M. During same moments he made several contradictory statements to Judge Angus. One to the effect that he went to the Springs and sat on the bank to rest; he was overcome by the heat and fell in, but succeeded in climbing out. He also told a second and probably true story to the effect that he had become morbid through continual night work and jumped into the hot water to commit suicide. A post mortem examination revealed the fact that the body and members were literally cooked by the hot water. He was a young man, probably twenty-five years of age, and has relatives in Utah. Report says he is a member of the family of the well-known Mormon, Orson Pratt, of Salt Lake City. The remains were shipped there for interment.

An Evident Attempt at Robbery.

Last evening about 8:30 o'clock, Mrs. Norcross, living in Powning's Addition, was retiring for the night, she heard some one rap, and went to the door and asked who was there. No one answered, but in a few minutes the rap came again, still louder, and again she asked who was there, but no answer came. She could hear them tiptoeing around on the porch, and became frightened. She was alone in the house and no arms to defend herself with. She started for Mrs. Shoemaker's house about 10:30 o'clock for help and word was sent to her son, Charles, who started for the house, but on arriving no one was to be seen. The would-be robbers must have become frightened on hearing her shut the back door, and fled.

District Court.

Judge Bigelow held Court a short time this morning, and admitted to citizenship H. A. Winton, a native of Canada, and Michael Maher, a native of Ireland.

The case of Robert Jones vs. Mary Jones, appeal from Justice Court, was set for trial November 12th, and a jury trial demanded. By consent, an open venire will be issued.

The case of C. T. Bender vs. C. S. Young, appeal from Justice Court, was set for trial November 10th, and will be tried by the Court without a jury.

The report of the Commissioners in the matter of partition in the Lake estate was submitted to the Court, and upon the showing made an order was entered confirming the same. With this the Lake estate is finally closed out of Court, and the property in possession of the distributees.

A Profitable Crop.

It is claimed that the Symonds Washoe Valley five-acre orchard will this year produce \$3,000 worth of apples.

A Life on the Ocean Wave.

Indurates the stomach against sea sickness, but a single or occasional transit across the "illimitable wetness" is productive of grievous qualms, especially when it is stormy.
